Take advantage of a specially designed plan

This plan is for people with Medicare and Medicaid coverage and has many extra benefits that can help you live a healthier life. It has a network of quality doctors, hospitals, pharmacies and other providers, designed to help you get the care you need. And you have access to a large dental provider network. You can also get care from out-of-network dental providers but your costs may be higher, even for services with a \$0 copay.

Here's how this HMO-POS D-SNP plan works

Get care from providers in the network or visit out-of-network providers for covered dental services.

Emergency and urgently needed services are covered anywhere in the world.

Select a primary care provider to oversee and help manage your care. It's required by the plan, but it's also very beneficial for your long term health and well-being.

This plan includes prescription drug coverage. Always use network pharmacies. You may pay more or the full cost for drugs received from pharmacies not in the network.

\$0 copays for preventive services when received in-network.

This plan includes Special Supplemental Benefits for the Chronically Ill (SSBCI), allowing eligible members—whose condition is verified by their provider—to use plan credits for healthy food and utilities, along with OTC and other wellness support products.

Some services require a referral from your doctor. Check your Summary of Benefits for details.

This plan has a maximum annual out-of-pocket amount.

Go to UHC.com/CommunityPlan to search for a network provider or pharmacy using the online directories. You can also view the plan Drug List (Formulary) to see what drugs are covered and if there are any restrictions. See your Evidence of Coverage for a list of all covered services.
